Advocating for high-quality, affordable health care for everyone, including closing the Medicaid coverage gap, through our American Cancer Society Cancer Action Network<sup>SM</sup>.

## **Patient Support**

Providing multiple support programs for people with cancer and their caregivers, including a home away from home at our Hope Lodge<sup>®</sup> communities when they need to travel for treatment and free access to cancer information via our 24/7 helpline.

## Overview:

The American Cancer Society GenNow Network engages young professionals across the nation in the fight against cancer. These passionate individuals raise funds and awareness by leveraging their personal and professional networks, organizing mission-based activities and events, and fostering community partnerships.

Their goal is to support the American Cancer Society's mission to improve lives of people with cancer and their families through advocacy, research, and patient support, to ensure everyone has an opportunity to prevent, detect, treat, and survive cancer.
